EVIDENCE CHECKS

PASS - Case references: Invoice, purchase order and SKU are required for this single-line workflow.

PASS - Quantity-level claim: A pallet count does not establish SKU-level delivery quantities.

PASS - Invoice reviewed: NF-1043-invoice.pdf

PASS - Invoice references and unit: Invoice, PO, SKU and unit must agree with the case; no implicit unit conversions.

PASS - Invoice quantity: A reviewed numeric quantity and source page are required.

PASS - Dispatch reviewed: NF-1043-dispatch.pdf

PASS - Dispatch references and unit: Invoice, PO, SKU and unit must agree with the case; no implicit unit conversions.

PASS - Dispatch quantity: A reviewed numeric quantity and source page are required.

PASS - Delivery receipt reviewed: NF-1043-delivery.pdf

PASS - Delivery receipt references and unit: Invoice, PO, SKU and unit must agree with the case; no implicit unit conversions.

PASS - Delivery receipt quantity: A reviewed numeric quantity and source page are required.

PASS - Delivery count confirmed: Receipt must explicitly substantiate the SKU quantity. Pallet-only, subject-to-count and shortages need investigation.

PASS - Quantities reconcile: Invoiced, dispatched and received quantities must agree for this full-delivery dispute. Differences need manual investigation.

PASS - Positive shipment quantity: Zero-quantity shipments cannot support a full-delivery dispute.
